

Neste Cutting Neatoil 200

Metalworking oil for steel

DESCRIPTION

Neste Cutting Neatoil 200 is a clear and almost odourless metalworking oil which is good for extremely demanding machining of ferrous metals. Paraffinic base oil together with effective EP additives guarantee high speed operation also with demanding materials.

SPECIAL FEATURES AND BENEFITS

- Effective EP additives
 - High speed operation
 - Also for demanding materials
-

TYPICAL CHARACTERISTICS

Density kg/m ³ 15°C	854
Flash Point °C (COC)	180
Viscosity cSt/ 40 °C	15.9

APPLICATIONS

Neste Cutting Neatoil 200 is good for milling, drilling, turning, broaching and tapping of high alloy and stainless steel. It can also be used for stamping and drawing of steel.
