Windscreen cleaner concentrate

PERFORMANCE CLAIMS

Freezing point, undiluted: -80 °C

Freezing point, 1:1: -30 °C

Freezing point, 1:2: -17 °C

Freezing point, 1:3: -11 °C

Freezing point, 1:4: -9 °C

DESCRIPTION

Neste Voltera Strong is used for automobile windshield cleansing in various and even very cold weather conditions. Neste Voltera Strong is keeping the windshield clean from road dirt, insects and so called "traffic film". The right dosage with water prevents the freezing of the windshield washer during cold seasons. The regular cleansing of wiper edges with undiluted Voltera Strong extends their lifetime, prevents scratching of the windshield and makes the cleansing more effective. Follow the specific instructions of paint manufacturers with freshly painted cars.

SPECIAL FEATURES AND BENEFITS

- Washes effectively windscreen
- Economical in use
- Protects windscreen washer equipment from freezing
- Does not contain poisonous methanol

TYPICAL CHARACTERISTICS

Density kg/m ³ 20°C	832
--------------------------------	-----

APPLICATIONS
